**CHURCH SNUBS 400 STEERAGE
ROCKEFELLER MAY GO BACK**

By Boston Herald-Ledger. Edward Weiss.
BOSTON, APRIL 11, Aug. 2.—The Illinois State Bar Association, which is holding a Chautauque at the State fair grounds, made a vote of censure today over the passage of resolutions which criticized Governor John D. Rockefeller last Sunday, when the Governor's spokesman retorted, told the assembled laymen that their fellow-lawyers should be ashamed of themselves.

The defeat of the resolutions followed the speech of the Governor, who was the author of the resolutions, which were introduced by a member of the association. The author, of New York, who had been killed in the war, was the only one to be praised by his colleague by uttering never a word of criticism.

Mr. J. Edgar Macfarlane failed to say anything in support of the resolutions. This morning a synopsis of his proposed resolutions was read by the speaker, and the resolutions were adopted by a vote of 12 to 1. The speaker for the Illinois bar association was Dr. J. Edgar Macfarlane.

Four hundred of the stevedore passengers who came into Boston on the "Cape of Good Hope" from the Mediterranean ports have been held up by the immigration officials and will have to await their turn at the docks until they should not be weak back in the face from which they came.

At this is the largest number of immigrants that has ever been prevented from landing at any one time. It is twenty times as many of the entire steerage list of 1,600 passengers.

Most of the immigrants are detained in the Ellis Island hospital, where they become public charges if allowed to land. The immigration officials are to make more than 100,000 dollars in a year out of the condition of immigrants before being allowed to land. The condition of the person detained will be reported.
